## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant has cancelled claims 28-30 thereby obviating the rejection of these claims under 35USC§102(b)
2. Claims 1, 8-19, 26-27 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 21 December 2007.
3. Applicant's arguments filed 23 October 2008 regarding the rejection of claims 2-7, 20-25 have been fully considered but they are not persuasive. The rejection under 35USC§103 has been maintained.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2-7, 20-25 rejected under 35 U.S.C. 103(a) as being unpatentable over Alink (US Pat. 5,840,942) in view of Zhang et al. (US Pub 2003/0100780).

Applicants argue Zhang (US'780) is disqualified as a reference because the instant invention was made at least by the date of 26 March 2008, which is prior to the publication of 29 May 2008.

The declarations filed on 23 October 2008 under 37 CFR 1.131 has been considered but is ineffective to overcome the Zhang reference.

While Zhang (US'780) may have a publication date of 29 May 2008 is does claim priority to a provisional application. The provisional application has a date of 10 July 2001. In determining the 102(e) of a publication or patent, one must taken into consideration any claims for priority under 35USC§119(e). It appears applicants did not taken into consideration the provisional application's priority date for this reference. The claims are still rendered obvious since no arguments other than those pertaining to the legitimacy of Zhang as an applicable reference.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
